

AMBROGIO ROBOT

THE ROBOTIC LAWNMOWER

Greener, Faster, Stronger Your New Italian Friend

Ambrogio robot is the robotic lawnmower than can **autonomously** manage both lawn mowing and recharging operations with **maximum safety and efficiency**.

20

Years of
experience

Simple and eco-friendly

Perfect lawn and
no grass disposal

Autonomous

Powerful batteries that guarantee
long work cycles

Performing

Optimal management
of slopes and uniformity of the cut

Made in Italy

High quality **components**

1 Ambrogio works autonomously

Ambrogio Robot mows your lawn **automatically and autonomously**, without any need for intervention or assistance.

2 Fits into any garden

There is a model for each type of garden.
Ambrogio meets every need.

3 ...And grass clippings are no longer a problem

Thanks to the Mulching function, the grass clippings are **left on the ground** and act as a natural fertiliser for the lawn.

4 Simple and friendly technology

Smart Technologies allow you to **manage and control the lawn mower robot remotely** and use voice assistants.

5 Small animals are always safe

Ambrogio Robot is a **friend of your pet and the small animals** that live in the garden, working at a safe distance until the blade stops.

6 More robots working in harmony

The navigation system allows you to **manage multiple robots, simultaneously** and safely, in a single green area.
